

User instructions

- BagBath® HairCare

"The natural replacement for daily hair wash."

BagBath® HairCare is an easy, efficient and hygienic solution for hair washing without use of water.

BagBath® HairCare contains such mild ingredients, so that rinsing with water is not necessary. It is used undiluted and is ready for use.

1. May be heated before use.
2. For bedridden patients, place a towel under the head of the patient before applying the product
3. Wet the hair with plenty of BagBath HairCare
4. Then massage BagBath HairCare thoroughly into the hair
5. Then simply dry the hair with a towel
6. Finally, set the hair as wanted

Ingredients in BagBath HairCare

- Aqua
- Acrylates Copolymer: Stabilizing and thickening polymer
- Sodium Benzoate: Mild preservatives that are readily biodegradable and not bioaccumulative
- TEA-lauryl Sulfate: A tenside (washing agent) with a mild effect on skin and hair. Readily biodegradable and not bioaccumulative
- Triethanolamine: pH-stabilizer
- Propylene Glycol: A moisture preservative that is readily biodegradable and not bioaccumulative
- Cocamide DEA: Also known as coconut soap. This is a co-tenside (washing agent) that promotes foam formation and acts as a stabiliser. Reduces skin irritation and has a protective effect. Readily biodegradable and not bioaccumulative
- Citric Acid: An acidity regulator with an antioxidant effect. Readily biodegradable and not bioaccumulative
