

User instructions

- BagBath® BodyCare

BagBath® BodyCare - wash without rinsing

1. BagBath BodyCare can be used directly from the bottle
2. Use an appropriate amount BagBath BodyCare on a dry or damp disposable cloth, or directly on the skin
3. Wash the body with BagBath BodyCare
4. Shall not be rinsed of

BagBath BodyCare can be heated in the microwave before use in order to achieve a more comfortable temperature during washing. It is a good idea to open the lid before the heat to prevent overpressure during heating.

The liquid can be reheated up to several times.

In order to avoid cross contamination, it is recommended not to use the same bottle for different patients.

BagBath BodyCare - qualities

- PH balanced for skin
- Keeps the natural acid mantle
